

ONSITE HERO PROGRAM

The Onsite Hero Program was established to recognize and reward the life-saving work being done by our committed mammography schedulers.

HOW IT WORKS

When a cancer is detected, the teammate who scheduled the patient's mammogram will be recognized as an Onsite Hero and will receive a special certificate and Onsite Hero hat for his/her first cancer detection in 2024.

Practice administration and providers are encouraged to collaborate with us to make this a fun event that highlights the significance of their roles.

Why the Onsite Hero Program?

It's important to remember that the work mammography technologists and schedulers do leads to lives saved. Everyone who has a role in scheduling mammograms can save a life and be a hero. We hope the Onsite Hero Program will help better connect all of us to the mission and the 'why' behind getting all eligible women scheduled for their mammograms.

We can't wait to meet all of the Heroes in 2024!
