

Partnering for Success

What radiologists can expect by partnering with
Onsite Women's Health via Total Radiology Solutions

Onsite Women's Health

Onsite Women's Health (OWH) is the leading provider of in-office breast health and imaging services across the country. Over the last 15 years, Onsite has brought in-office screening and diagnostic services to more than **150 medical practices in 26 states**.

Total Radiology Solutions

Total Radiology Solutions (TRS), founded in 2009, is OWH's premier radiology services partner - with 18+ contracted breast imagers. Together, their partnership spans 13 years and provides a flexible work environment, with caseloads/volumes specific to the needs of each radiologist.

Why Work with OWH + TRS?

- **Work-life balance with 100% remote work**
- **Income control with volume flexibility** (current radiologists read 50-125+ studies per day)
- **Collaborative environment** with open communication channels and top-down support
- **Clinical autonomy**
- **Coverage redundancy** with 1-2 secondary radiologists for every primary radiologist, ensuring consistent backup coverage and a way to keep worklists current
- **Ability to read a high volume** of screening mammograms alongside some mix of remote diagnostic mammograms/ultrasound and automated whole-breast ultrasounds

How We Work Together

150+ Practices

**TOTAL
RADIOLOGY
SOLUTIONS**

**Dr. George Michael
(Mike) Spencer**
CEO, TRS and Primary OWH
Lead Interpreting Physician

**18+ Independent
Contracted
Radiologists**

What Each Party Provides
